This Holy Trinity, Blessed Virgin Mary, and St Bernard's Church was first erected as a Cistercian shrine back in the 13th c. The Gothic interior was extremely damaged in the 1577 fire and was replaced with the Baroque fixtures we can admire today. Oliwa Cathedral is 107m long, which makes it the longest church in Poland. The decorative gem is the Rococo organ, from 1763-1788. When built, the instrument was the largest in Europe.
